ABOUT COMPANY

Ansh Corporation stands as a distinguished and long-standing construction company that first took root in the year 1998 in the city of Sonbhadra, situated in the state of Uttar Pradesh, India. Over the course of more than two decades, the company has matured into a prominent figure in the construction and infrastructure realm, a testament to its unwavering commitment to quality and expertise.

The journey of Ansh Corporation began with a visionary outlook, a clear understanding of the construction landscape, and a fervent desire to contribute meaningfully to the development of the region and beyond. The company's foundation was laid with the aspiration to amalgamate traditional values with modern construction practices, ensuring that every project undertaken carries the hallmark of excellence.

What started as a humble endeavor has since blossomed into a thriving establishment, earning the trust and admiration of clients, collaborators, and competitors alike. Ansh Corporation's legacy is one of growth, adaptability, and resilience in the face of challenges that arise in the construction industry.

Throughout its existence, the company has remained committed to its founding principles, continuously striving to enhance its capabilities and broaden its horizons. Its consistent pursuit of innovation, along with a deep-rooted respect for ethical business practices, has elevated Ansh Corporation to the status of a respected and sought-after entity in the construction domain.

FOUNDER PROPRIETOR

Mr. Rajesh Kumar Sharma

Mr. Rajesh Kumar Sharma, a seasoned professional in the construction industry, founded Ansh Corporation in 1998 with a vision of surpassing industry standards. His hands-on leadership, commitment to quality, and ethics have shaped the company's reliable reputation. A beacon of inspiration, he fosters innovation and growth within the company, encouraging employees to think creatively. Beyond business, his philanthropic efforts underscore social responsibility.

Mr. Sharma's enduring legacy embodies dedication, integrity, and forward thinking, ensuring Ansh Corporation's continued excellence and readiness for the future while staying true to its foundational principles.

OUR SERVICES

Ansh Corporation's prowess in the construction industry is exemplified by its diverse array of core services, each meticulously crafted to cater to the multifaceted demands of modern infrastructure development. These services stand as a testament to the company's versatility, technical proficiency, and unwavering commitment to delivering top-tier solutions.

Earth Work

Ansh Corporation's expertise in earth work is a cornerstone of its capabilities. From excavation to grading, the company's skilled workforce and cutting-edge machinery ensure that earth-moving projects are executed with precision and efficiency. The mastery over this fundamental aspect of construction allows Ansh Corporation to lay a robust foundation for a wide range of projects.

Transportation

Recognizing the importance of seamless material and equipment movement, Ansh Corporation offers reliable transportation services. Whether it's the safe delivery of construction materials or the efficient movement of heavy machinery, the company's transport solutions contribute to the smooth execution of projects, minimizing delays and optimizing resource allocation.

Railways

Ansh Corp strengthens connectivity and economy through railway infrastructure projects, constructing tracks, stations, and facilitating efficient transportation.

Civil Construction

Ansh Corp excels in diverse civil projects, crafting roads, bridges, and urban structures with precision through skilled labor, exemplifying their commitment to enhancing the built environment.

Grid Supply

Ansh Corporation's involvement in grid supply infrastructure underscores its commitment to powering communities and industries. By participating in the construction of grid supply networks, the company plays a pivotal role in ensuring reliable electricity distribution, essential for driving economic growth and enhancing quality of life.

Mining

With a focus on responsible resource extraction, Ansh Corporation engages in mining operations that adhere to stringent environmental regulations. The company's approach to mining underscores its commitment to sustainable practices, minimizing ecological impact while contributing to resource availability for various industries.

*From reshaping
landscapes to
powering Groups,
our diverse core
services are the
building blocks
of progress.*

COMPANY VALUES

Ansh Corporation's commitment to excellence extends beyond technical proficiency. Its core values form the bedrock upon which the company operates, ensuring that every project is a reflection of integrity, quality, and innovation.

Quality

The pursuit of excellence is embedded in Ansh Corporation's DNA. The company's dedication to delivering projects of the highest quality ensures that clients receive solutions that stand the test of time and meet their expectations.

Safety

The well-being of its workforce and the security of project sites are paramount for Ansh Corporation. Stringent safety protocols are in place to ensure that every project is executed with the highest regard for the health and safety of all involved.

Integrity

Ansh Corporation operates with the utmost integrity, upholding ethical standards in all interactions. This commitment to honesty and transparency fosters trust with clients, partners, and stakeholders.

Innovation

Ansh Corporation embraces innovation as a driving force behind its growth. By adopting cutting-edge technologies and modern methodologies, the company remains at the forefront of the construction industry, constantly evolving to meet new challenges.

FINANCIAL PERFORMANCE

Ansh Corporation's financial performance stands as a testament to its operational excellence, strategic planning, and commitment to delivering value to its clients and stakeholders. In the financial year 2022-2023, the company achieved a remarkable turnover of approximately 12 Crores INR, showcasing its financial stability and growth trajectory.

Strategic Financial Management

The company's financial success is a result of meticulous financial management, guided by a clear vision and prudent decision-making. Ansh Corporation's leadership, led by Mr. Rajesh Kumar Sharma, has demonstrated an adept understanding of market dynamics, enabling the company to navigate challenges and seize opportunities effectively.

Diverse Revenue Streams

The diverse range of services offered by Ansh Corporation translates into multiple revenue streams. The company's proficiency in various construction domains, from earthwork to grid supply, allows it to tap into different sectors of the construction industry, enhancing its revenue potential and mitigating risks associated with dependency on a single market segment.

”

*Excellence is our foundation;
every project reflects our
commitment to quality,
integrity, and innovation.*

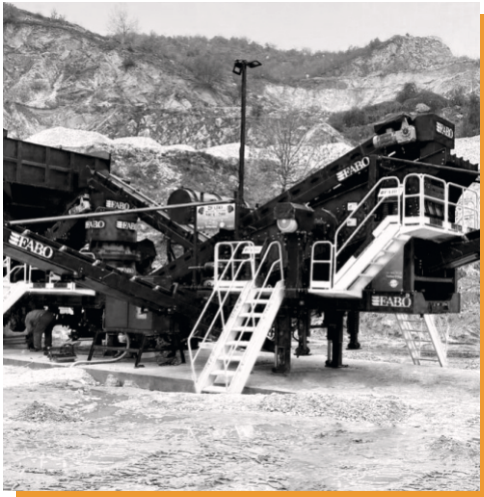

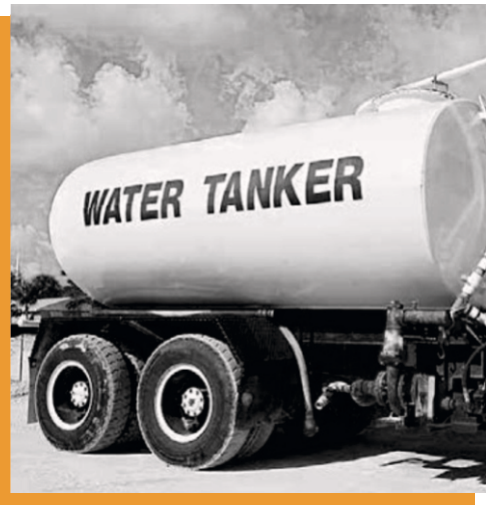

MACHINERY & EQUIPMENT'S

Ansh Corporation's operational excellence is a direct result of its strategic investment in a versatile fleet of machinery and equipment. These advanced tools enable the company to execute projects efficiently, maintain quality standards, and uphold its commitment to timely project completion.

01 Tipper Hyva Trucks
The backbone of Ansh Corporation's transportation capability lies in its fleet of 40 Tipper Hyva trucks. These heavy-duty vehicles are adept at carrying a wide range of construction materials, ensuring seamless logistics and efficient movement of resources across project sites. The trucks' robust design and capacity contribute significantly to the company's ability to manage material delivery with precision.

02 Water Tankers
Water is an essential resource in construction, and Ansh Corporation recognizes its importance by deploying 4 Water Tankers. These specialized vehicles ensure a reliable supply of water to construction sites, supporting dust control, material compaction, and other essential construction processes.

03 Mobile Crushers
(200 TPH and 350 TPH)
With a focus on versatility and scale, Ansh Corporation boasts 2 Mobile Crushers of varying capacities, measuring 200 TPH and 350 TPH. These powerful crushers facilitate the on-site processing of large volumes of materials, enhancing project efficiency by reducing the need for off-site transportation and processing.

04 Pock Lane Machines (200 & 350)
The heart of Ansh Corporation's earthwork operations lies in its fleet of 8 Pock Lane Machines, available in capacities of 200 and 350 cubic meters. These machines are instrumental in excavation, grading, and earthmoving projects of varying scales. Their precision and power contribute to the company's ability to create strong foundations for a diverse range of construction endeavors.

”

Ansh Corporation's investment in these machinery and equipment assets underscores its commitment to operational excellence, sustainable practices, and technological innovation. These tools not only enhance the company's project execution capabilities but also reflect its dedication to quality, efficiency, and responsible construction practices.

3	Water tanker	02

TERMS AND CONDITIONS: (All as Applicable as per INT/GM/CT/BRC/WO/2023/643, date - 17.05.2023)

Major terms are mentioned as below:

Quantity to be lift per day is 8220 MT.

If the average daily progress of work during the calendar months is less than the stipulated rate indicated in the detailed tender notice/ agreed work schedule, penalty as detailed below will be levied.

If the average daily progress of work executed during the calendar month is 80% and more but less than 100% of the stipulated rate indicated in the detailed tender notice/agreed work schedule (quantity-wise), penalty equal to 10% of the contract value of the short fall quantity in work shall be deducted at the end of the respective Financial Quarter if the shortfall quantity either in full or part has not been made up within that Financial Quarter.

In case the trucks are being weighed both at the loading end as well as unloading end, the figures of weighment at both the ends shall be reconciled every month in respect of each contractor and if there is any shortage of coal received at the unloading end, the value of coal found short, will be deducted as under:

a. For the variation in quantity upto 1% (One percent) at the rate of prevailing sale price of the said grade of coal.

b. For the variation in quantity exceeding 1% (One percent) double the then prevailing rate. The aforesaid deduction/recovery shall be made including all royalty, cess etc. from the running on A/c bill and/or security deposit of the transporting contractor (s) concerned or otherwise, specifically mentioned in work order/agreement.

No payment shall be made to the coal transporting contractor for stone / shale / bands / extraneous materials segregated at the siding/ coal handling plant / stock / washeries in the process of despatching coal to consumers.

If the work of transportation / removal of picked out band / shale / stone / extraneous materials / overburden / washery rejects is contracted out payment for the same shall be made on the basis of volumetric measurement of trucks, duly verified against the volumetric measurement of such materials at the site of unloading where weighment of such materials is not possible.

The contractor, before starting the work, shall furnish to the site in charge the list of trucks/tipping trucks/ payloaders/ equipments, proposed to be deployed for the work, with the related papers of registration, fitness certificate, permits, licenses, insurance, driving licenses etc. for inspection. No tipping trucks/ trucks/ payloaders/ equipments shall be deployed for the work without the approval of the site incharge.

Only tipping trucks with mechanical unloading arrangements shall be deployed by the contractor and in no case "Dala" trucks shall be deployed or permitted to be deployed for the work of coal transportation.

Only tipping trucks in good and safe condition having valid fitness certificate permits/ licences etc. and in respect of which the required taxes / fees have been deposited and which are properly covered by insurance, shall be deployed for the work. The company shall have the right to inspect or arrange inspection of the vehicles / equipments deployed by the contractor for the work at any time and declare any vehicle/ equipment unsafe and ask for its immediate withdrawal from the site / operation. The contractor shall ensure prompt / immediate compliance of the same.

The contractor shall at his own cost, arrange for regular checking / maintenance / repair of the tipping trucks / equipment and keep them in good and safe conditions at all times. Proper records of such checking/maintenance/repair shall be maintained in a Log Book kept on the vehicle for the purpose, which shall be readily available for inspection whenever required.

Only experienced, skilled and disciplined drivers of sound health, good behaviour and antecedents having valid and requisite driving licence shall be deployed by the contractor for driving the tipping trucks / trucks / pay loaders / equipments deployed for the work. In no case any un-authorized driving of the tipping trucks or operation of payloaders/ equipments shall be permitted by the contractor.

No addition or alteration to the size of the body or any such truck shall be carried out, without prior approval of the site incharge. The trucks shall be loaded only upto the maximum carrying capacity and shall not be overloaded under any circumstances. In case of those contracts where the lead distance involves transportation on PWD road also, the following condition will apply:

In case UP/MP Govt. authorities lift the restriction on the quantity transported per truck, the benefit will pass on to NCL and accordingly, the payment will be restricted to the permissible net weight per truck or actual whichever is less, on monthly basis.

Contractor's trucks should ply only on specified routes / roads. In case, plying of the trucks on any other route / road become necessary, due to any reason, prior approval for the same shall be taken by the contractor from the BRCPL. In case of violation of this provision penalty may be imposed on the contractor and / or the contract terminated.

The Company shall have no responsibility / liability whatsoever for any accident / damage to the contractor's vehicle / equipments in transit or while engaged in the works. If the Company suffers any loss on account of suspension of production or idleness of its equipments /employees or on any other account or damage to its property, due to any failure on the part of the contractor or due to any act of omissions or commission on the part of his representative / employees or from the trucks / equipments of the contractor, the value of the same as assessed by the Company, shall be recovered from the contractor's bill / security deposit. The decision of the company in this regard shall be final and binding on the contractor.

Jurisdiction: The law applicable to the contract shall be the law in India and the Court of Raigarh (C.G). Shall have exclusives Jurisdiction of all matters arising under this contract.

PAYMENT TERMS:

Diesel Payment Weekly basis.

On Monthly basis invoice (Weekly diesel payment to be excluded from the invoice) should be submitted by contractor and payment will be realised within 10 working days from the date of invoice submission.

NOTE - This terms and conditions may be changed depending upon exigency of the Company. Please acknowledge the receipt of this contract and return the duplicate copy duly sealed and signed as a token of your acceptance of the contract.
